| PDA NATIONAL RESPONSE TEAM | \$299,488 |
|-----------------------------------|------------------|

The Presbyterian Disaster Assistance (PDA) National Response Team (NRT) members represent PDA following a disaster in the United States. They provide support, long-term recovery and compassion fatigue training, and provide emotional and spiritual care to affected presbyteries and synods as they assess the impact of the disaster on both the church and the community. They also assist in connecting presbyteries to local, regional and national resources. In 2018, PDA worked in partnership with 64 Presbyteries within 15 Synods. The NRT assisted with disaster recovery in at least 22 states and Puerto Rico to 28 natural and human caused disasters in 2018 and assisted in 8 long-term recovery locations for disasters dating back from 2015. NRT provided over 22 multi-day trainings and workshops throughout the country.

|--------------------------------|
| PDA HOSPITALITY PROGRAM |
|--------------------------------|

The Presbyterian Disaster Assistance (PDA) Hospitality Program became a permanent program area in 2012 in response to requests from mid-councils and local congregations to provide hospitality to volunteer work teams following disasters. A network of trained hospitality volunteers works with the mid-councils and partner agencies to assess hosting sites and help determine the hospitality model that will best match their facility to the recovery coordination. In 2018, more than 10,000 work team volunteers served through 40 PDA-related volunteer hosting sites in 17 states. Of these 40 host sites, the PDA National Call Center managed calendars for 21 host sites that housed volunteers donating more than 500,000 hours of labor for disaster recovery. The monetary equivalence of this labor is valued at over \$12 million; however, as the church we know the value of our service is not limited to financial support—by bearing the witness of Christ’s love, our gifts of service are multiplied.
