2025 Building Use Cost Increase

Building Services announces fee increase for after-hours access. Groups that want to meet in the building, other than our normal hours of operation, may still do so but at a slight increase over last year. The new minimum 4-hour flat rate for opening the building during closing hours is $528 and $132 per hour for each additional hour. This does not include special pricing for use of the one west conference center.

If you have any questions regarding reservations of space in the building, please contact Margaret Farmer in Building Services.
