

Recurring Gifts to The PC(USA) Impact Fund Help Kids be Kids

Two-thirds of Ukrainian refugee children displaced in Hungary live in single-parent households because one parent is either fighting in the ongoing war or has died as a result of the conflict.

But because of recurring donors like you, the PILLARS community has helped transform their lives through gifts to The PC(USA) Impact Fund, which provides broad support to the PC(USA) and allows the Church to respond quickly and compassionately as needs arise.

Alongside the Presbyterian Church (U.S.A.)'s trusted partner the Reformed Church of Hungary, the PC(USA) has provided grants that enabled these refugee children to get back into the classroom after years of online learning.

Because of consistent support from recurring donors and the faithful one-time gifts of thousands of other Presbyterians, these children displaced by war have a renewed sense of security and normalcy so they can learn, grow and heal. They're able to socialize, make new friends, go on field trips, play sports and access psychosocial support. This is all possible due to your giving — thank you!

Together, Pillars like you are helping the PC(USA) and our partners make hope known in Jesus Christ by building a more compassionate, peaceful and just world — one recurring gift, one faithful partnership and one transformed life at a time.
